### DESCRIPTION

Star's heated merchandisers are designed to be a visually appealing and functional solution a variety of operations including snack bars, Little League ball parks, recreation stands, and convenience stores. These units are available in two sizes to ensure they can fit any operation's needs—big or small.

### SPECIFICATIONS

Star heated merchandisers will be constructed with tempered glass panels and extruded aluminum corner posts. The cabinet will utilize a stainless steel chute for the loading of product and a stainless steel bottom. Units will use a lower heating element to warm product [one 50 watt element for the 12NCPW and one 80 watt element for the 15NCPW]. A 75 watt flood lamp will also be used on each unit to provide additional heat and illuminate the product. Units will have a 6 ft. (1.83 m) long power cord and appropriate NEMA plug for its voltage and amperage.

### WARRANTY

These units come with a one [1] year warranty for parts and labor.

### FEATURES

- Bright yellow painted steel top and vivid, colorful signs to help build impulse sales
- Panels provides excellent visibility of product no matter where it's placed in the store
- Heated stainless steel bottom keeps product fresh and warm
- A 75 watt flood lamp illuminates the inside of the cabinet to further warm product and enhance product appearance
- A stainless steel chute minimizes breakage when loading product and allows for easy serving
